

IT 1000

IT SUPPORT PROFESSIONAL

PROGRAM DETAILS

Our IT Support Professional certification program is perfect for the individual looking to take the first step on a pathway toward a career in IT. You will gain an understanding of the core components that make up the IT landscape and then advance into technical training. Plus, proper customer service skills. This IT Support training program is built of two courses: Fundamentals of IT and A+ Comprehensive.

In the Fundamentals of IT course, you'll learn the basics of computer hardware, software, mobile computing, networking, troubleshooting and emerging technologies. Additional topics include configuring operating systems, file and folder management, networks and network configuration and the role of the OSI model in networking and troubleshooting. This course ultimately prepares students for the CompTIA IT Fundamentals certificate exam.

The A+ Comprehensive course provides training focused on the fundamentals of computer technology, networking and security. Plus, you'll learn about cutting-edge technologies such as cloud computing and virtualization.

After successfully finishing this program, you will be prepared for CompTIA's A+ and IT Fundamentals (ITF+) exams and will have built a solid foundation for a long career in IT.

AT THE END OF THIS PROGRAM, YOU WILL BE ABLE TO:

- ✓ Identify hardware, peripheral, network, and security components
- ✓ Set up basic security, software updates and wireless devices
- ✓ Maintain, support and work efficiently with computers
- ✓ Understand the fundamentals of computer technology, networking and IT security
- ✓ Know how to perform proper computer safety procedures and best practices

IT-1011 - CompTIA IT Fundamentals

IT-2012 - A+ Comprehensive

While this training and related target certifications may be accepted and/or approved by your state of residency, employers reserve the right to dictate pre-requisite education, experience, or certification/licensure requirements for their positions. These requirements may exclude a graduate from eligibility. We strongly advise students to research target job posts from area employers and relevant state requirements, barriers or restrictions to ensure eligibility upon graduation.
